## AltroColor Color Pastes

- Polyurethane and Epoxy Resin Systems
- Polyurea and Polyaspartic Systems
- Wood Glazes

AltroColor color pastes are formulated pigments for highest technical demands. Due to their extraordinary strength of color and brilliance, they offer the user a large number of application possibilities in the industry, and in the art and hobby sector.

The standard range alone of the AltroColor color pastes comprises a large number of current color shades and is matched to each of the binders used.

In addition to this, we have the possibility of formulating AltroColor color pastes individually as per your color definitions. Please contact us, we will commonly deliberate with you how to implement your wishes.

### AltroColor Color Pastes for 2-component polyurethane systems

<u>Product designation</u> <i>measurable (volumetric – gravimetric)</i>	<u>Color Index</u>		<u>Product designation</u> <i>measurable (volumetric – gravimetric)</i>	<u>Color Index</u>	
PU 3029 white	PW 6	inorganic	PU 3038 red PR 254	PR 254	organic

## AltroColor Color Chart

	PY 74 Monoazoyellow		PW 6 titanium oxide
	PY 83 Diarylyellow		PBk 11 black iron oxide
	PR 112 Naphthol AS		PY 184 Bismuth-Vanadat
	PR 48:3 Monoazo Sr lake		PY 42 yellow iron oxide
	PR 254 Diketo-Pyrrolo-Pyrrol (DPP)		PR 101 red iron oxide
	PR 122 Chinacridon		PB 29 ultramarine blue
	PB 15:1 Cu-Phthalocyanin, α-Mod.		PB 36 cobalt blue
	PB 15:3 Cu-Phthalocyanin, β-Mod.		PG 17 chrome oxide green
	PG 7 Cu-Phthalogreen		PG 50 cobalt green
	PBk 7 pigment soot		

The digitalized colors correspond to the primary shade (5% color transfer in case of organic and 20% color transfer in case of inorganic pigments). They merely give you an idea of the color effect and are no binding reference for the original products.

Altropol supplies also NEUKADUR Epoxy Resin Systems (e.g. gel coats, casting compounds, modelling- and laminating pastes, laminating- and multipurpose resins), NEUKADUR Polyurethanes (fast-cast resins pre-filled and unfilled, prototype casting resins, elastic systems, RIM-systems, vacuum casting systems), NEUKASIL RTV-2 Silicone Rubber (condensation- and addition cured), RAPID SPRAY Polyurea coating systems, NEUKAPOL Polyols based on renewable raw materials, auxiliary products and fillers.

ALTROPOL recommends color mixing machines of the company
